

# CALL FOR PAPERS

**ICEESD 2020**  
**Jun 11-12, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEESD 2020 : International Conference on Energy Exploration, Sustainability and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Exploration, Sustainability and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy exploration  
Advances in energy exploration  
Geological engineering and energy exploration technologies  
Energy exploration, modeling and simulation  
Marine energy exploration and exploitation  
Geothermal exploration  
GIS and remote sensing  
Geothermal energy  
Crude and heavy oils, oil sands, shale oils and natural gas

Coal and coal conversion to liquid and gas products  
Nuclear fuels, electricity and renewable energies  
Exploration and exploitation of fossil fuels and uranium  
Resource development, case histories of new fields, opportunities and prospects  
Reviews of energy company activities  
Environmental impact of exploration, development and use, together with  
Waste management  
Periodical reviews of major energy topics
