

CALL FOR PAPERS

ICFMHTT 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMHTT 2020 : International Conference on Fluid Mechanics, Heat Transfer and Thermodynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluid Mechanics, Heat Transfer and Thermodynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fundamentals of Fluid Mechanics	Exergy, Second Law
Flow instability and Turbulence	Measurement Techniques and Thermal Properties
Aerodynamics and Gas Dynamics	Turbulence
Hydrodynamics	Refrigerants, Refrigerators, Freezers, Thermal Management
Industrial and Environmental Fluid Mechanics	Natural Convection and Cooling Towers
Biofluid Mechanics	Phase Change
Geophysical Fluid Mechanics	Enhanced Heat Transfer
Plasma and Magneto-Hydrodynamics	Heat Exchangers
Multiphase Flows, Non-Newtonian Flows and Flows in Porous Media	Novel Applications
Flow of Reacting Fluid	Pumps, Blowers and Fans
Microscale Flows	Turbines, Compressors, Intakes and Engines
Fluid Mechanics, Heat Transfer and Thermodynamics	Combustion
Power Plants and Power Generation
