

CALL FOR PAPERS

ICFOCM 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFOCM 2020 : International Conference on First Order Cybernetics and Mechanisms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of First Order Cybernetics and Mechanisms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

First order cybernetics
First order cybernetics systems
The peculiarities of cybernetics
The uses of cybernetics
Mechanism
Variety
Regulation and control
Change
Transformation
Repeated change
The determinate machine
Coupling systems
Feedback

Independence within a whole
The very large system
Stability
Disturbance
Equilibrium in part and whole
The black box
Isomorphic machines
Homomorphic machines
The very large box
The incompletely observable box
Regulation in biological systems
The Marconian machine
Markovian regulation
