

CALL FOR PAPERS

ICGET 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGET 2020 : International Conference on Geothermal Exploration and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geothermal Exploration and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geothermal exploration
Geothermal exploration techniques
and technologies
Geothermal exploration and drilling
technologies
Geothermal potentials
Regional and explorations
Exploration methods
Geothermal resources
General properties of the
geothermal systems

Geophysical methods
Thermal methods
Electrical methods
Magnetic measurements
Gravity measurements
Seismic methods
Active and passive seismic methods
Combining methods
