

CALL FOR PAPERS

ICHSAAS 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSAAS 2020 : International Conference on High Speed Aerodynamics and Aerospace Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High Speed Aerodynamics and Aerospace Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High speed aerodynamics
General theory of high speed aerodynamics
Aerodynamics of wings and bodies
High speed aerodynamics and jet propulsion
Airplane stability and control
Aerodynamic drag
Aerodynamic design

Aerodynamics and flight control systems
Gas dynamics
Applied gas dynamics and high speed jets
Expansion problems
Aeroacoustics
Active and passive control of jets and base flows
Supersonic, transonic and subsonic aerodynamics
