

# CALL FOR PAPERS

**ICFACMAST 2020**  
**Jun 29-30, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFACMAST 2020 : International Conference on Forensic Analytical Chemistry, Molecular and Atomic Spectrochemical Technique is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forensic Analytical Chemistry, Molecular and Atomic Spectrochemical Technique. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forensic analysis  
Drug analysis  
Molecular and atomic spectrochemical technique  
Electrochemical techniques  
Sensors

Surface characterization techniques  
Mass spectrometry  
Nuclear magnetic resonance  
Chemometrics and statistics  
Separation sciences
