

CALL FOR PAPERS

ICAAAMCE 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAAMCE 2020 : International Conference on Advances in Alkali-Activated Materials and Circular Economy is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Alkali-Activated Materials and Circular Economy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cost and environmental impact
optimization of mix designs
(especially in terms of alkali
activators)
Admixture development
Micro and nanostructural
characterization of AAMs
One-part mix designs (“just add
water” dry mixtures)

Durability of AAMs
Life cycle assessment (LCA)
Applications in environmental
engineering such as catalysis and
water treatment
