

CALL FOR PAPERS

ICABTMS 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABTMS 2020 : International Conference on Advanced Battery Technologies and Management Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Battery Technologies and Management Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced battery technologies
New applications
Management systems
Disruptive battery technologies
Advanced battery management systems (BMS)

Efficient battery fast-chargers
Smart batteries with new functionalities
Innovative control strategies for battery energy storage systems (BESS)
Electro mobility
Stationary applications
