

CALL FOR PAPERS

ICACC 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACC 2020 : International Conference on Aluminum Compounds and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aluminum Compounds and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry of aluminum
Chemistry of aluminum compounds
Chemical properties of aluminum
Environmental chemistry and toxicology of aluminum
Chemistry of soil aluminum
Chemistry of aluminum in surface waters
Aluminum oxide

Corrosion and chemical changes in aluminum metal
Texture and surface chemistry of aluminum
Chemical processing of aluminum
Chemical reactions of aluminum
Chemical conversion coatings
Aluminum forms in drinking water
Aquatic aluminum
