

CALL FOR PAPERS

ICASMEHMI 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASMEHMI 2020 : International Conference on Application of Sorption Materials in Environment and Heavy Metal Ions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Application of Sorption Materials in Environment and Heavy Metal Ions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Composite biosorbents
Sorption
Composite ion exchangers
Dyes
Heavy metal ions

Sorbent life
Interactions of metal ions with sorbents for advanced materials
Material characterization
Sorption modeling
