

CALL FOR PAPERS

ICBCA 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCA 2020 : International Conference on Bulk Commodities and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bulk Commodities and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bulk commodities	Technology and applications
Bulk chemicals	Industrial organic chemistry
Bioconversion of biomass to bulk chemicals	Gas fermentation for bulk commodities
Bulk chemicals from biomass	Bulk commodities market
Sustainable production of bulk commodities	Biotechnology
Production of bulk commodities from renewable resources	Biotechnology for the production of bulk chemicals
Bulk handling safety	Electrosynthesis of biotechnology
Organic bulk commodities	Biotechnology and energy production
Bulk chemicals and biofuels	Chemical resistance of commodity thermoplastics
Transportation of liquid bulk chemicals	New developments
