

CALL FOR PAPERS

ICBCS 2020
Jun 17-18, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCS 2020 : International Conference on Bulk Chemicals and Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bulk Chemicals and Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bulk chemicals	Technology and applications
Bioconversion of biomass to bulk chemicals	Industrial organic chemistry
Bulk chemicals from biomass	Gas fermentation for bulk chemicals
Sustainable production of bulk chemicals	Bulk chemicals market
Production of bulk chemicals from renewable resources	Biotechnology
Bulk handling safety	Biotechnology for the production of bulk chemicals
Organic bulk chemicals	Electrosynthesis of biotechnology
Bulk chemicals and biofuels	Biotechnology and energy production
Transportation of liquid bulk chemicals	Chemical resistance of commodity thermoplastics
Commodity chemicals	New developments
