

# CALL FOR PAPERS

**ICCSI 2020**  
**Jun 17-18, 2020**  
**Montreal, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSI 2020 : International Conference on Chemistry and Structure of Iron is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemistry and Structure of Iron. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Iron chemistry  
The chemistry and structure of iron  
Chemical properties of iron  
Industrial chemistry of iron and its compounds  
Inorganic chemistry of iron  
Organo-iron compounds

Spectroscopic methods in iron chemistry  
Health and environmental effects of iron  
Models for iron biomolecules  
Chemistry of iron in marine aerosols  
The cloudwater chemistry of iron  
Chemistry of iron sulfides in sedimentary environments
