

CALL FOR PAPERS

ICBSE 2020
Jun 04-05, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSE 2020 : International Conference on Building Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Building Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building Science and Engineering	Construction Economics
Building Acoustics	Construction Engineering
Building Automation and Management System	Design Guides and Standards
Building Environmental Monitoring and Control System	Energy Efficiency in Buildings
Building Forensic	Environmental Engineering
Building Infrastructure and Environment	Environmental Impact Assessment
Building Intelligent and Management System	Fire Safety System
Building Life-Cycle - Repair and Rehabilitation	Geo-structure and Geo-environment
Building Maintenance	GIS Application in Building
Building Services	Green Building Environment
Building Ventilation	Green Construction
Civil Engineering	Illumination
Composite and innovative materials in buildings	Impact of Climate Changes to Building
