

CALL FOR PAPERS

ICEEWMI 2020
Jun 04-05, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEWMI 2020 : International Conference on Environmental Engineering, Waste Management and Incineration is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering, Waste Management and Incineration. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering
Solid waste management
Waste handling practices
Financial models
Disposal solutions
Incineration
Recycling
Resource recovery practice
Waste hierarchy
Wastewater treatment
Life-cycle of a product
Resource efficiency
Polluter pays principle

Adverse effects of waste on health
the environment and aesthetics
Waste management and recycling
activities at manufacturing sites
and mines
Systems for waste management,
reclamation, transfer and disposal
on land, sea and air
Environmental impact assessment and
mitigation
Water supply and treatment
Air pollution management
Environmental protection agency
Protecting the environment by
reducing waste and pollution
Improving environmental conditions
Technologies and processes that
control pollution
Prevent, control and remediate
environmental hazards
Waste treatment
Site remediation
