

CALL FOR PAPERS

ICESCNCT 2020
Jun 04-05, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESCNCT 2020 : International Conference on Energy-Saving Construction and Nonconventional Concrete Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy-Saving Construction and Nonconventional Concrete Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-saving construction
Energy-saving construction
materials

Renewable energy technologies
Energy-efficient building design
and construction practices
Non-conventional materials and
technologies
Nonconventional concrete
technologies
Resource efficiency in the
building
High performance mechanical
systems

Energy efficient lighting
Radiant floor heating
Solar water heater
Geothermal heat pumps
Green building technology
Green building materials
Green site selection and planning
