

CALL FOR PAPERS

ICFMA 2020
Jun 04-05, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMA 2020 : International Conference on Formal Methods in Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Formal Methods in Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Formal methods in architecture
Ontologies in architecture
Building information modelling
Computed aided design
Virtual design to construction
Computer aided manufacturing

Cellular automata
Geographic information systems
Parametric processes
Scientific fields
Shape grammars
Tracking and mapping
