

# CALL FOR PAPERS

**ICGM 2020**  
**Jun 04-05, 2020**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGM 2020 : International Conference on Geopolymer Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geopolymer Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geopolymer materials: chemistry and applications  
Geopolymers  
Carbon footprint  
Alkali-activated materials

Inorganic polymers  
Waste valorization  
Sustainable design  
Innovative applications
