

CALL FOR PAPERS

ICTAAC 2020
Jun 25-26, 2020
Oslo, Norway

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTAAC 2020 : International Conference on Theoretical and Applied Aspects of Cybernetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Theoretical and Applied Aspects of Cybernetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebraic Number Theory
Applied Mathematics
Artificial Intelligence
Coding Theory
Complex Systems Informatics and Modeling
Computational Algebra
Computational and Applied Mathematics
Computational Mathematics
Computer Science
Cryptography
Cyber Security
Cybernetics
Cybernetics and Systems Analysis

Databases and Knowledge-based Systems
Discrete Mathematics and Combinatorics
Groups, Algorithms and Programming
Information Content and Processing
Information Models and Analyses
Information Security Management
Information Security Science
Information Technologies and Knowledge
Information Theories and Applications
Networks, Communications and Systems
Oscillation Theory
Probability Theory and Mathematical Statistics
Problems Programming
