

CALL FOR PAPERS

ICABB 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABB 2020 : International Conference on Algal Biotechnology and Biochemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Algal Biotechnology and Biochemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algal biotechnology
Taxonomy, biology, ecology and biodiversity of algae
Physiology, cultivation, bioprocesses and biotechnology
Algae and the environment
Algal omics and applications
Algal biorefinery and industrial trends
Food, feed, nutraceuticals and pharmaceuticals
Large scale algal bioprocesses
Extraction and conversion of microalgal lipids
Applications of algae in food and feed
Algae based technology to treat industrial effluents

Algal farming for biofuels and other valuable products
Bio-remediation using algae
Process models and techno-economic assessments
Human health, nutrition, personal care
Environmental applications
Aquaculture, animal and pet health and nutrition
Methods, analytics, teaching aids
Bioenergy
Biorefineries
Specialty and bulk chemicals
