

# CALL FOR PAPERS

**ICAC 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAC 2020 : International Conference on Advances in Chromatography is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Chromatography. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in Chromatography

Instrumentations

Analytical and Bio-analytical

Applications of Chromatography

Biochemical Applications of

Chromatography

Chip Based Chromatography

Separations

Chromatography and Mass

Spectrometry

Chromatography as Separation

Technique

Chromatography in Bio-Medical

Research

Chromatography in Environmental

Sciences

Chromatography in Food Science

Technology

Chromatography in Forensic  
Sciences

Chromatography in Pharmacy and  
Pharmaceutical

High Efficiency and High Resolution  
Techniques

HPLC Fingerprinting in

Bioinformatics and Computational

Biology

Hyphenated Chromatography Methods

Major Chromatographic Techniques

Market growth of Chromatography

Method Development and Validation

Recent Advances in Chromatography
