

CALL FOR PAPERS

ICAGB 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGB 2020 : International Conference on Advances in Green Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Green Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green biotechnology
Emerging technologies in agriculture and livestock
Transgenic plants
Genetically engineered crops
Molecular markers
Molecular diagnostics
Tissue culture
Advanced machine systems
Agricultural biotechnology
Agricultural ergonomics
Agricultural production and food safety
Agricultural systems
Agricultural waste management

Agro-industry
Animal agriculture in the globe
Animal health and welfare
Animal protein and fiber products
Aquaculture and biosystems research
Biological natural resource engineering
Bio-machine systems
Bioprocess and biosystems
Biotechnology for livestock, pests and aquaculture
Biochemical engineering
Biotechnology
Product engineering in the bio industries
Self-organization in the bio-sciences and elsewhere
