

# CALL FOR PAPERS

**ICASC 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASC 2020 : International Conference on Advances in Silicon Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Silicon Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Low-coordinate and multiply-bonded silicon compounds  
Silicon compounds with unusual structures  
Hypercoordinate silicon compounds  
Silicon transition-metal complexes

Bonding and structure  
Reactions and mechanisms  
Silicon-based materia
