

# CALL FOR PAPERS

**ICBBNNM 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBNNM 2020 : International Conference on Bioengineering, Biopolymers from Non-Natural Monomers is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering, Biopolymers from Non-Natural Monomers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular basis of biopolymer  
synthesis and metabolic  
engineering  
Synthetic biology for biopolymer  
production and biopolymer  
engineering  
Bioreactors and biopolymer  
production technologies  
Downstream processing  
Analytics in the field of  
biopolymers  
Biopolymer processing technologies  
and polymer stability  
Biopolymers from non-natural  
monomers

Applications (including  
biomedical): biomaterials and  
biopolymers  
Commercialization of  
biopolymers/market analysis  
Life cycle assessment of biopolymer  
production and uses  
Biopolymer and bioplastic  
degradation, recycling, and  
environmental fate  
Biorefineries: feedstock and  
production chains  
Other
