

# CALL FOR PAPERS

**ICBMN 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMN 2020 : International Conference on Basic Mechanisms of Neuroleptics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Basic Mechanisms of Neuroleptics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Antipsychotic  
Neuroleptics or major  
tranquilizers  
Medical uses  
Mechanisms  
Side effects  
Schizophrenia  
Bipolar disorder  
Dementia  
Unipolar depression  
Typicals versus atypicals  
Adverse effects  
Long term effects  
Withdrawal

List of agents  
First-generation  
Disputed/unknown  
Second-generation  
Investigational agents  
Mechanism of action  
Comparison of medications  
History  
Society and culture  
Tolerability  
Efficacy  
Binding affinity  
Pharmacokinetics
