

# CALL FOR PAPERS

**ICBPBE 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBPBE 2020 : International Conference on Bioengineering and Polysaccharide Biosynthesis Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering and Polysaccharide Biosynthesis Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular basis of biopolymer synthesis and metabolic engineering  
Synthetic biology for biopolymer production and biopolymer engineering  
Bioreactors and biopolymer production technologies  
Downstream processing  
Analytics in the field of biopolymers  
Biopolymer processing technologies and polymer stability

Biopolymers from non-natural monomers  
Applications (including biomedical): biomaterials and biopolymers  
Commercialization of biopolymers/market analysis  
Life cycle assessment of biopolymer production and uses  
Biopolymer and bioplastic degradation, recycling, and environmental fate  
Biorefineries: feedstock and production chains
