

CALL FOR PAPERS

ICBSMFC 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSMFC 2020 : International Conference on Bioelectric Sensors and Microbial Fuel Cell is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioelectric Sensors and Microbial Fuel Cell. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioelectric sensors

Bioelectric

Bioelectric profiling

Biosensor

Electrophysiology

Impedimetric

Impedance spectrometry

Implantable

Medical diagnostics

Microbial fuel cell

Microsensors

Nanosensors

Olfactory

Patch-clamp

Potentiometry

Signal transduction

Single cell analysis

Toxicology
