

CALL FOR PAPERS

ICCEA 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEA 2020 : International Conference on Clinical Enzymology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clinical Enzymology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clinical enzymology
Clinical enzymology and its applications
Spectrometry, electrophoresis and immunoassay
Enzymes nomenclature, classification, structure and specificity
Enzymes, isoenzymes and their relevance in diagnosis
Regulation of enzyme levels in serum and plasma
Measurement of isoenzymes and isoforms
Important enzymes in clinical practice
Chemical pathology
Toxicology

Enzyme changes in myocardial infarction cardiomyopathies and non-ischaemic heart failure
Enzyme studies in african heart disease
Imported tropical disease, amoebiasis and other liver disorders
Enzyme studies in pregnancy
The value of enzymology in the detection of cervical carcinoma
Inherited metabolic and enzyme abnormalities
Enzyme changes in diabetes mellitus
Enzyme changes in urinary tract disease and hypertension
Cerebrospinal fluid abnormalities
