

CALL FOR PAPERS

ICCEPDD 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEPDD 2020 : International Conference on Chemical Equipment Process Design and Drawing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Equipment Process Design and Drawing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical equipment design
Chemical process equipment design
and analysis
Process control
Drivers for moving equipment
Transfer of solids
Flow of fluids
Fluid transport equipment
Heat transfer and heat exchangers
Dryers and cooling towers
Mixing and agitation
Solid-liquid separation
Disintegration, agglomeration, and
size separation of particulate
solids
Distillation and gas absorption

Extraction and leaching
Adsorption and ion exchange
Crystallization from solutions and
melts
Chemical reactors
Process vessels
Membrane separations
Gas-solid separations
Process fluid mechanics
Designing and evaluating of pumps,
compressors, valves, and other
piping systems
Process heat transfer
Separation equipment
Preliminary analysis and design for
pressure vessels
Simple phase-separators and steam
ejectors
