

CALL FOR PAPERS

ICCSE 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSE 2020 : International Conference on Cyber Security Exercises is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Security Exercises. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyber-security and crisis management exercises
National NIS incident management and cooperation plans
Alerting systems and information exchange platforms for cross-border NIS cooperation
Integrated situational awareness.
Data collection, abstraction, visualisation
Governance models, practices and escalation procedures for cyber crisis management

International NIS cooperation for incident management and response
Legal aspects of NIS cooperation and information sharing
Handling public relations and media in the case of major cyber-incidents
Breach notification / regulatory affairs: ENISA as the reporting point for the Member States
Co-operation procedures involving civilian and national security stakeholders
