

CALL FOR PAPERS

ICCSPC 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSPC 2020 : International Conference on Communications, Signal Processing and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communications, Signal Processing and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptive filtering and signal processing
Ad-hoc and sensor networks
Analog and mixed signal processing
Array signal processing
Audio and electroacoustics
Audio/speech processing and coding
Bioimaging and signal processing
Biometrics and authentication
Biosignal processing and understanding
Communication and broadband networks
Communication signal processing
Computer vision and virtual reality
Cryptography and network security

Design and implementation of signal processing systems
Digital signal processing
DSP implementations and embedded systems
Hardware implementation for signal processing
Higher order spectral analysis
Image and multidimensional signal processing
Image processing and understanding
Image/video processing and coding
Industry technology
Internet signal processing
Machine learning for signal processing
Modulation and channel coding
