

# CALL FOR PAPERS

**ICEESE 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEESE 2020 : International Conference on Electrochemical Sciences and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrochemical Sciences and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial electrochemistry  
Industrial electrochemical processes  
Electrochemical engineering  
Chlor-alkali industry  
Extraction, refining and production of metal  
Inorganic electrolytic processes  
Organic electro synthesis  
Water purification, effluent treatment and recycling of industrial process streams  
Metal finishing  
Metals and materials processing  
Corrosion and its control

Batteries and fuel cells  
Electrochemical sensors and monitoring techniques  
Industrial photo chemistry  
Textile industrial chemistry, textile engineering and apparel industry  
Nuclear chemistry in industry  
Production of food and beverages  
Adhesive industrial chemistry  
Industrial processes, white biotechnology and green chemistry  
Industrial materials and applications  
Chemistry in plastic, glass and leather industries
