

# CALL FOR PAPERS

**ICEGC 2020**  
**Jun 05-06, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEGC 2020 : International Conference on Engineering Geology and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Geology and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering Geology and  
Construction  
Highway Construction  
Tunnels  
Excavations and Slopes  
Land Evaluation and Site  
Investigation  
Open Excavation and Slopes  
Subsurface Excavations  
Foundation Conditions and Buildings

Routeways  
Reservoirs and Dam Sites  
Hydrogeology  
River and Coastal Engineering  
Waste and its Disposal  
Derelict and Contaminated Land  
Geological Material Used in  
Construction
