

CALL FOR PAPERS

ICENE 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICENE 2020 : International Conference on Enzyme Nanotechnology and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Enzyme Nanotechnology and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enzyme nanotechnology
Enzyme nanoparticles
DNA nanotechnology
Nanotechnology products
DNA microarray
Nanopolymers
Nanotechnology in targeted drug delivery
Immobilization using nanoparticles

Nanotechnology enabled enzyme activity
Preparation of enzyme nanoparticles
Characterization of enzyme nanoparticles
Immobilization of enzyme nanoparticles
Kinetic properties of enzyme nanoparticles
Applications of enzyme nanoparticles
Future development in enzyme nanoparticles
