

CALL FOR PAPERS

ICGFPS 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGFPS 2020 : International Conference on Gamma Function and Physical Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Gamma Function and Physical Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Gamma function
Stirling's formula
Residues
Minima
Fourier series expansion
Raabe's formula
Pi function
Relation to other functions
Particular values

The log-gamma function
Properties
Integration over log-gamma
Approximations
Applications
Integration problems
Calculating products
Analytic number theory
Gamma function applications in
physical science
