

CALL FOR PAPERS

ICIE 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIE 2020 : International Conference on Immobilization of Enzymes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immobilization of Enzymes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enzyme immobilization
Enzyme immobilization methods and applications
Enzyme therapy in cancer
Immobilized enzyme systems
Immobilization of enzymes and cells
Therapeutic enzymes in drug delivery
Clinical application of immobilized enzymes
Whole cell immobilization
Immobilized enzymes in antibiotic production
Metallozymes

Enzyme functional groups
Native functional groups
Amino acid side chains
Enzyme-linked carbohydrates
Synthetic functional groups
Carrier materials and functional groups
Inorganic carriers
Organic carriers
Naturally occurring organic carriers
Synthetic organic carriers
