

CALL FOR PAPERS

ICMTM 2020
Jun 05-06, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTM 2020 : International Conference on Manufacturing Technology and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing Technology and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Future/lean enterprise, factory of the future, fractal company, virtual enterprise
New types of organisations, structural changes, change management
Business of process systems engineering
Agile/holonic manufacturing, biological/autonomous/distributed systems
Manufacturing innovation/strategy/policy/economics, globalisation
Product development, production management, DFMA, systems integration
Decentralisation/"de-verticalisation" in production management
Microelectronic manufacturing systems, embedded software

High-precision manufacturing, computer-based/time-based technologies
Supply chain, supplier partnerships, outsourcing
Production planning, scheduling, control, logistics
Ecology-driven manufacturing/services
Productivity, performance evaluation, [virtual] benchmarking
Manufacturing science, advanced manufacturing systems
Human resources/professional development
