

CALL FOR PAPERS

ICAAM 2020
Jun 11-12, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAM 2020 : International Conference on Advances in Architectural Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Architectural Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural modeling
Advances in architectural modeling
Advantages of architectural modeling
Architectural modeling for modern buildings
Architectural modeling and applications
Modeling techniques
Simulation and modeling applications
Architectural models
Architectural modeling and design

Software techniques for architectural modeling
Ad hoc models
Presentation models
Exterior models
Landscaping design models
Urban models
Virtual modeling
Analytical modeling materials
Architectural endoscopy
