

CALL FOR PAPERS

ICFMDT 2020
Jun 11-12, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMDT 2020 : International Conference on Fermented Milks and Dairy Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fermented Milks and Dairy Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dairy Products
Food and Dairy Technologies
Functional ingredients from permeates and acid whey
Milk composition, structure, and formation
Lactose, lactose derivatives and oligosaccharides
Protein preparations
Fermented milks
Protein stability during processing and storage

Milk protein ingredient functionality
Utilising protein aggregation and separation technology
Role of milk protein in muscle mass
Interactions between proteins and bacteria
Structure/function relationships for protein in cheese
Design and manufacture of improved foods and dairy ingredients
Diet formulation strategies
Cheese making, manufacture, and processes
