

CALL FOR PAPERS

ICMIPEC 2020
Jun 11-12, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIPEC 2020 : International Conference on Modelling of Industrial Processes and Energy Conservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modelling of Industrial Processes and Energy Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Big data in process design and operation
Circular economy
Data reconciliation
Energy conservation
Energy efficiency
Industrial revolution 4.0
Optimal control
Process intensification

Process integration
Resource saving
Safety analysis
Scale-up techniques
Stochastic optimization
Supply chains analysis
Waste recycling
