

# CALL FOR PAPERS

**ICNMC 2020**  
**Jun 11-12, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMC 2020 : International Conference on Nonconventional Materials and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nonconventional Materials and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nonconventional construction materials

Sustainable and nonconventional construction materials

Nonconventional and vernacular construction materials

Application of non-conventional materials in construction

Non-conventional materials and technologies

Nonconventional concrete technologies

Energy-saving construction materials

Earth materials and constructions

Unfired clay materials and construction

Nonconventional timber construction

Ancient stone masonry constructions

Construction industry and sustainability

Performance and durability

Roofing solutions

Different applications

Future directions for

nonconventional materials
