

# CALL FOR PAPERS

**ICOP 2020**  
**Jun 11-12, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOP 2020 : International Conference on Optics and Photonics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optics and Photonics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biophotonics  
Combustion physics  
Computational photonics  
Diffractive optics  
Fibre optic systems  
Instrumentation and measurement  
Optical diagnostic engineering  
Optical environmental sensing

Optical fibre sensors  
Optical nanoscience  
Optical techniques for materials  
characterisation  
Optical tweezers  
Optical vortices  
Sensors and actuators  
Smart x-ray and neutron optics  
Structured optical materials
