

# CALL FOR PAPERS

**ICDE 2020**  
**Jun 18-19, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDE 2020 : International Conference on Dam Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Dam Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete and Masonry Dams  
Embankment Dams  
Appurtenant Works  
Tailing Dams  
Environmental Issues  
Finance and Economic Aspects  
Roller Compacted Concrete Dams  
Concrete Face Rockfill Dams  
Methods of Analysis and Design of Dams  
Dam Foundation  
Seismic Analysis  
Stability of Dams and Slopes  
Dam Monitoring and Instrumentation

Safety Assessment  
Operation and Maintenance  
Rehabilitation and Dam Heightening  
Concrete Swelling Processes  
Risk Assessment  
Warning Systems  
Geomembranes for dams  
Dam Management Systems  
Design Innovation  
Modelling and Testing  
New Materials for Dams  
Small Dams
