

CALL FOR PAPERS

ICCCEA 2020
Jun 22-23, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCEA 2020 : International Conference on Civil and Computer Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil and Computer Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial and computational intelligence
Control and robotics
Communications, networking and protocols
Parallel and distributed processing
Signal and multimedia processing
Biomedical and health informatics
Mobile and smartphone applications
Software engineering and applications
Green computing for sustainable energy
Cloud computing

Structural materials
Structural engineering
Earthquake engineering
Geotechnical engineering
Environmental engineering
Fluid mechanics
Transportation engineering
Restoration and rehabilitation of historical buildings
Construction management
Sustainability of concrete and steel structures
