

# CALL FOR PAPERS

**ICCMBM 2020**  
**Jun 22-23, 2020**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMBM 2020 : International Conference on Construction Methods and Building Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Methods and Building Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction methods  
Building materials  
Construction management  
Construction trends and prospects  
The construction process  
Codes and regulations  
Earthmoving and heavy construction  
Earthmoving materials and operations  
Excavating and lifting  
Loading and hauling  
Compacting and finishing  
Rock excavation

Production of aggregate, concrete, and asphalt mixes  
Paving and surface treatments  
Planning and scheduling  
Improving productivity and performance  
Compressed air and water systems  
Building construction  
Wood construction  
Concrete construction  
Concrete form design  
Masonry construction  
Steel construction
