

# CALL FOR PAPERS

**ICCPPEM 2020**  
**Jun 22-23, 2020**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPPEM 2020 : International Conference on Construction Process Planning, Equipment and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Process Planning, Equipment and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction planning  
Construction planning and scheduling  
Planning techniques  
Procedures and methods  
Estimation of resource requirements  
Scheduling systems  
Monitoring and control  
4D simulation  
Planning and design  
Construction planning, equipment, and methods

Construction planning and management  
Planning in practice  
Effective construction planning  
Planning and scheduling in construction management  
Strategic construction planning  
Construction process planning and management  
The construction planning management methodology  
Project management for construction  
Construction site assessment and planning  
Construction plan implementation
