

# CALL FOR PAPERS

**ICDMVD 2020**  
**Jun 22-23, 2020**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMVD 2020 : International Conference on Dual Mode Vehicles and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Dual Mode Vehicles and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |                                             |                                 |
|---------------------------------------------|---------------------------------|
| Dual mode transit                           | Energy security                 |
| Dual mode vehicle                           | Emissions                       |
| Dual mode vehicle design                    | Safety                          |
| Terminal and network alternatives           | Roadway costs                   |
| Dual mode vehicle and infrastructure        | Dual mode technology evaluation |
| Dual-mode solution                          | System requirements             |
| Technology                                  | Technology options              |
| Logistics                                   | Networked system change         |
| Motivation                                  | Road-rail vehicle               |
| Energy, environmental and economic benefits | Two-way vehicles                |
| Alternatives analysis                       | Road-rail buses                 |
| Transportation demand                       | Road-transferable locomotive    |
| Congestion and demographics                 |                                 |
