

CALL FOR PAPERS

ICESCBD 2020
Jun 22-23, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESCBD 2020 : International Conference on Energy-Saving Construction and Building Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy-Saving Construction and Building Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-saving construction
Energy-saving construction materials
Renewable energy technologies
Energy-efficient building design and construction practices
Non-conventional materials and technologies
Nonconventional concrete technologies
Resource efficiency in the building
High performance mechanical systems

Energy efficient lighting
Radiant floor heating
Solar water heater
Geothermal heat pumps
Green building technology
Green building materials
Green site selection and planning
