

CALL FOR PAPERS

ICGCLCA 2020
Jun 22-23, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCLCA 2020 : International Conference on Green Construction and Life Cycle Assessment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Construction and Life Cycle Assessment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green construction	Energy efficiency
Green building	Water efficiency
Sustainable building	Materials efficiency
Green construction materials and technologies	Indoor environmental quality enhancement
Construction management	Operations and maintenance optimization
Construction method and system	Waste reduction
Reducing environmental impact	Cost and payoff
Goals of green building	Regulation and operation
Life cycle assessment	International frameworks and assessment tools
Siting and structure design efficiency
