

# CALL FOR PAPERS

**ICWGWPM 2020**  
**Jun 22-23, 2020**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWGWPM 2020 : International Conference on Wind-Generated Waves and Physical Mechanisms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wind-Generated Waves and Physical Mechanisms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wind-generated waves  
Wave generation  
Typical periods of wind-generated waves  
Theories of wave growth  
Experiments and observations  
Numerical modeling of the wind input  
Physical mechanisms of wave evolution

Ocean wave characteristics  
Ocean wave measurement  
Wave prediction  
Operational forecasting of wind-generated waves  
Directional spectra of wind-generated waves  
Energy dissipation of wind-generated waves
